"Let That Show"

Visit "[Let That Show](#)" on MotoLyrics.com

Was a time
When i thought i could talk down
To all my friends

It's a crime
When i think of how the sun
Revolved around me then

A big wheel was turning
A great gap that was burgeoning
It feels like i am dying as i watch you go
I never let that show

Was a time
When i could not be considered
Right to you

It's a crime
When i think of all that shit
I've put you through

A big wheel was turning
A great gap that was burgeoning
It feels like i am dying as i watch you go
I never let that show

But this little gospel light of mine won't shine
This little gospel light of mine won't shine
It won't shine
