It will take a fancy store  
For mom and dad  
To forget what they never had

It will only take one moment  
To make her believe  
She's something worth trying on

A little motivation goes a long way down  
Down, down

I think a cigarette should smoke  
Like the Devil's holy joke  
Because he's laid one out on me

I think if everybody streamed  
From their TVs to your scene  
It would be okay with me

You can't keep a good thing on a string  
You've got to give it room to breath  
It may leave an empty space

A little motivation goes a long way down  
Down, down

In every situation  
Heavy traffic jams his sound
