Hey man, you're so complicated and mean
Maybe your system needs adjustment
She is a famous people collector
I'm juggling J O B, The Judger

Maybe the words don't mean a thing
They never fill the dead man's shoes
Who killed the culture-hero trip?
If it was me then it was you

You can be intimidating
When people think you're complicated
How could you be so in-between?
What they want and what you need

"Man, you're so complicated and mean"
The young mustafah cleaner said
"Don't waste your mojo on a curse
Politic your angry reason out of bed"

And if your words mean anything
Make them a positive foundation
Back it up with what you do
Wring the love out of frustration!

You can be intimidated
When people think you're complicated
How could you be so in-between?
What they want and what you need
