I know how the good wind blows and it gives me my
time

Don't let them drag your hatred off the line

I know how the anger goes so I bury mine

You know they had me working overtime

I want no part of your black heart causes

Empty speeches, broken promise

I know how the anger flows so I carried time

Don't let them drag the needle through your dime

I know how the hatred goes so I buried mine

Lucky seven, Lucky rolls the dice, yeah that's right

I want no part of your black heart causes

All this preaching and still no progress

What angry blue has got into you?
