(you've been whispering again)

Why does it have to have a name?
Why does it have to have a name?
It's you and i, you and i
Love walks a long and lonely road
Sticks to the breeze and what it knows
It's you and i, you and i

Friend, you've been whispering again
Friend, you've been whispering again

Wildflowers grow and call your name
Under the moon it stays the same
It's you and i, you and i
Jump through the fields and kiss the sky
Asking the gods forgiveness - why?
It's you and i, you and i

Friend, you've been whispering again
Friend, you've been whispering again
