"Door Of Dreams"

There's a door of dreams that only lovers
know
Through that door of dreams, just those in love
may go
Every moment I love you more and more it
seems
Say you? I'll walk with me through the door of
dreams!
We don't need a lover's moon in the sky
Or
the fragrance of a rose in July
Or the magic of a star
standing by, above you
If you? I'll only say I love
you!
There's a door of dreams that only lovers
know
Through that door of dreams, just those in love
may go
Every moment I love you more and more it
seems
Say you? I'll walk with me through the door of
dreams!
There's a door of dreams that only lovers
know
Through that door of dreams, just those in love
may go
Every moment I love you more and more it
seems
Say you? I'll walk with me through the door of
dreams!
Come my love with me,
Through the door of
dreams!
