If I let you in. I'll never let you out
If I let you in. I'll never let you out
If I let you in. I'll never let you out
Never let you out

Blessed are the few who live and die for love
I can see their footsteps in the sand

If I let you in. I'll never let you out
If I let you in. I'll never let you out
If I let you in. I'll never let you out
Never let you out
Winter watches over us as we decide
I can see the twilight in your eyes and mine

If I let you in. I'll never let you out
If I let you in. I'll never let you out
If I let you in. I'll never let you out
Never let you out
