All at once you know  
All at once you know

You start to light her cigarette  
And all at once you love her  
You've scarcely talked, you've scarcely met  
But all at once you love her

You like her eyes, you tell her so  
She thinks you're wise and clever  
You kiss goodnight and then you know

You'll kiss goodnight forever  
You wonder where your heart can go  
Then all at once you know

All at once you know

You like her eyes  
(Like her eyes)  
You tell her so  
(Tell her so)

She thinks you're wise and clever  
(You're wise an' clever)  
You kiss goodnight and then you know

You'll kiss goodnight forever  
You wonder where your heart can go  
Then all at once you know

All at once you know
