I confess, it's you that I adore  
I confess each day, I love you more  
Is it sinful to kiss you and thrill?  
If it's sinful, then darling, I'm guilty

I confess, the dreams I can't control  
You possess my dreams, my very soul  
I'm yours for the taking, I'll never give less  
So answer, yes, confess what I confess

I confess, the dreams I can't control  
You possess my dreams, my very soul  
I'm yours for the taking, I'll never give less  
So answer, yes, confess what I confess
