Oh! how I miss you tonight,
Miss you while lights are low
Oh! how I need you tonight,
More than you'll ever know!

Each moment though we're apart
You're never out of my heart
But I'd rather be lonely, and wait for you only
Dear one, how I miss you tonight!

Each moment though we're apart
You're never out of my heart
But I'd rather be lonely, and wait for you only
Dear one, how I miss you tonight!
