"Somebody Makes It So"

Visit "[Somebody Makes It So](#)" on MotoLyrics.com

What makes the sun shine,
what turns the rain to snow?

What makes a mountain,
what makes a river flow?

What makes two people know
that they need each other?
Somehow it just doesn't happen,
somebody makes it so!

What makes a bird fly,
who tells it where to go?

What makes the grass green,
what makes a baby grow?

What makes us feel that
our love will last forever?
Somehow it just doesn't happen,
somebody makes it so!

< repeat all >

It just doesn't happen,
somebody makes it so . . .

It just doesn't happen . . .
Somebody makes it so!

Words and Music by Paul Vance
and Eddie Snyder
