Sonata, my sonata  
I hear your haunting theme  
And I begin to dream

You linger, my sonata  
In every reverie  
You bring your love to me

Please, play on  
Make my dream love stay  
When you're gone she fades away

Sonata when I find her  
Each tender note you play  
Will be my serenade

Please, play on  
Make my dream love stay  
When you're gone she fades away

Sonata when I find her  
Each tender note you play  
Will be my serenade

My sonata
