There never was a night so beautiful,
As this night here with you under the stars,
No music ever was so danceable,
No one as romance-able,
As you are . . .

There never was a night so beautiful,
It seems I'm on the planet Mars,
And yet they say it's not unusual,
For people to feel this way,
The way I do . . .

They say it happens when the one you love,
Loves you!
< instrumental break >
And yet they say it's not unusual,
For people to feel this way,
The way I do . . .

They say it happens when the one you love,
Loves you!

Music and Lyrics by John Rox
With Hugo Winterhalter and His Orchestra
