There'll never be another night like this
A girl like you, to hold an' kiss
Oh, there'll never be another night like this
A girl like you, to love

I've been livin' in the past, hangin' on to yesterday
Walkin' down a sad road only leads a man one way
There are shadows in my eyes, empty fields in my
heart
But you brought all the feelings back, an' given me a
start

There'll never be another night like this
A girl like you, to hold an' kiss
Oh, there'll never be another night like this
A girl like you to love

Touchin' you is touchin' me like a spirit doin' free
If the end should come, this is the place I'd choose to
be
You're a second chance at life and it's better than the
first
For you filled all my senses up, an' quenched a dyin'
thirst

There'll never be another night like this
A girl like you, to hold an' kiss
Oh, there'll never be another night like this
A girl like you, to love

There'll never be
Another night like this
Don't let go, I won't let go
Show everything there is to show

There'll never be another night like this
A girl like you, to hold an' kiss
Oh, there'll never be another night like this
A girl like you, to love

There'll never be
Another night like this to fade
