

## Pestilence

### "Fiend"

Visit "[Fiend](#)" on MotoLyrics.com

Unstoppable urge to destroy the flesh  
By injecting the venom into the veins  
Destined to fade away therefore I detest  
Being born in this hell, nothing to gain

Only pain and misery  
Push the depression away  
Disrespect of life for I only see  
Salvation, injecting the venom every day

Changing into the beast I love to hate

I hate to love the ones that care  
The chaos that is in my head is what I create  
To forget who I was before the despair

Inject - Reject - Detest - My Flesh

Only pain and misery  
Push the depression away  
Disrespect of life for I only see  
Salvation, injecting the venom every day
