Resurrected to rot once more  
Devouring the all organic whore  
Pulsating urge through hate neurons  
Black veins, weakened souls absorbing energy

Stretching the horror absurd  
Living tissue stripped from reality  
Regurgitation of hate dissolving organic  
Until pure

[Chorus:]  
Resurrection Macabre

Intestinal beads trophy religious like  
Love to hate and hate to love

Grim reality, life seeps away  
Compulsive suppressing emotions of weakness

Stretching the horror absurd  
Living tissue stripped from reality  
Regurgitation of hate dissolving organic  
Until pure

Stretching the horror absurd  
Living tissue stripped from reality  
Regurgitation of hate dissolving organic  
Until pure

[Chorus]
