To confess all of your sins  
Is where you salvation begins  
For the truth lies deep withi your soul  
Conform to the holy dogma let it  
UNFOLD

Salvation - Is the only way  
Salvation - The healing of the decay

Revealing the dark thoughts  
Is knowing your own heart  
Expose all of you weak spots  
And tell me where it rots

Salvation - Is the only way

Without surrendering you seal your faith  
No angels or saints to carry your weight  
Your innermost core needs to be revealed  
And the dying soul can be healed

Salvation - Is the only way  
Salvation - The healing of the decay
