Paved roads of deceit
Leading to all life's directions
So many went ahead
Self-denial at their horizons

Reaching out for all
That's there to achieve
Despite your being
And what you believe

Weakening of the truthful being
On the rise of a personality
Within your own creation of lies
Soon you'll be

Reaching out for all
That's there to achieve
Despite your being
And what you believe

In search of your entity
Betrayed by who you would like to be
A journey with your mind
Seeking traces you left behind

Eye-sights replaced by views
Driven by human desire
Fulfillment of your dreams
Have made you a liar

Reaching out for all
That's there to achieve
Despite your being
To what you believe

In search of your entity
Betrayed by who you would like to be
A journey with your mind
Seeking traces you left behind

Despite your being
And what you believe

In search of your entity

Seeking traces you left behind
