Anxiety provides the aspect of days  
Dislodge and make them disappear  
Domination in sadistic ways  
All you hear and see is fear

Inferior to the superior  
Restrictive ways to live  
Enter the lists against the conqueror  
Oppression is not destructive

Trapped in prevailing insanity  
Vindictive minds in restraint  
Fortification of pugnacity  
Life in a domain

Subordinate to the domination  
Life ruled by fear  
Subordinate to the domination  
Distinction, resist and persevere

Being swayed by agony  
Obedience and compulsion  
Subordination eternally  
Revolt remains an illusion

Deprived latitude and domination  
Turned up in implacability  
Grievous visions and confusion  
Belief in vanishing disparity
