You're Naturally Beautiful
No make up should cover you
It's not just your physical
That makes you incredible

Your style is so elegant
So perfect you're heaven sent
I wanna let you know
That you shall forever glow

Tell me what you see when you look in the mirror
Is it physical things that you would wanna fix up
Girl I'm just here to tell you that you're beautiful how
you are
And I wouldn't change a thing cuz I fell in love with your
heart

Your my girl and I'm your man
No make up can do what I can
Make you smile when you down
What I loved then girl I still love now

And There's nothing in this world
That's more beautiful than my girl

You're Naturally Beautiful
No make up should cover you
It's not just your physical
That makes you incredible

Your style is so elegant
So perfect you're heaven sent
I wanna let you know
That you shall forever glow

There's plenty of fish out in the sea
But you're one of a kind... yahtzee
I rolled the dice and yes I found the one
No games over here but we still have fun

Trips to Paris St. Tropez

Anywhere we go girl you don't pay
Pack that Louis bag and we on our way
Yeah said we on our way

You go girl your one of kind
You're a ten outta ten that's a perfect dime
When I first seen you I had to make you mine

She's got Class like oh oh
Sex like woah oh
And the best part of all girl you're beautiful

You're Naturally Beautiful
No make up should cover you
It's not just your physical
That makes you incredible

Your style is so elegant
So perfect you're heaven sent
I wanna let you know
That you shall forever glow

God's gift to me
Is what I see
You've got Natural beauty

Don't matter what the haters say
Just do you
You're Naturally Beautiful

You're Naturally Beautiful
No make up should cover you
It's not just your physical
That makes you incredible

Your style is so elegant
So perfect you're heaven sent
I wanna let you know
That you shall forever glow

So look in the mirror say you go girl
Look in the mirror say you go girl
Look in the mirror say you go girl
You go girl You go girl
