"The Endless Need"

Visit "[The Endless Need](#)" on MotoLyrics.com

Why do we live this life?
Why must you take over the world I know?
You try to feed my lies
If this is what you want, then make it so

Feel what I know (Don't need to feel alone)
Purposely take control (I don't need your hold)
Find the strength to hold (It's in your heart)
It's getting harder to sustain the endless need

To be alone

What have I done for me to deserve this
It has began... my life
Now, my time is now, I no longer feel this
It's just begun... my life

It's all too far gone to make it real
It's all to far gone, you won't be real
