

Al Jarreau "Betty Bebop's Song"

Visit "[Betty Bebop's Song](#)" on MotoLyrics.com

I thought I'd drop a line just saying
How your song's been playing?
A pretty pitter patter it lightly played
The summer rain upon my face

Like polka dots and ballerinas
You floated right between us
With gossamer and feathers
You fanned the flames portraits caught in autumn rain

Around and round upside down
Are you just out for air
Or maybe somewhere hiding?
Playing 'round the corner

Somewhere I read a line
Just praising a book and a song
And how the world was brighter
When Betty came along

Around and round upside down
Are you just out for air
Or maybe somewhere hiding?
And playing 'round the corner

Somewhere I read a line
Just praising a book and a song
And how the world was brighter
When Betty came along

This world was brighter
When Betty came along
