Nitakungodea Milele
Nitakungodea Milele

These are the words I say when I want you near to me
From that place deep in my heart you will see
I am never far away when you turn to every place
When you reach out for my love I'll be there , yeaah

I will be here for you, baby
I will be here for you when you're fallin'
I will be here for you, baby let me love you

When the world's too hard to bear and you need a
helping hand
I'll be there, the one to help you understand
If you wander far away Zambia or Monterey
I'll be there the one to wash your tears away ay - ay - ay

I will be here for you, baby
I will be here for you when you're fallin'
I will be here for you, baby let me love you
I will be here for you, baby let me love you

Nitakungodea Milele
Nitakungodea Milele

I will be here for you, baby
I will be here for you when you're fallin'
I will be here for you, baby let me love you

I will be here for you, baby
I will be here for you when you're fallin'
I will be here for you, baby let me love you
