Woo woo woo woo woo woo

Sometimes life seems full of complications  
Hard to see the forest for the trees  
Just a little brave imagination  
Opens up new possibilities  
So look behind your eyes  
You'll be surprised at what you see

Life is full of tricky situations  
Don't get caught up in the yesterdays  
There's a something called imagination  
Even little children find a way  
So put your hand in mine  
I bet we'll open up the door  
If we seek we'll find  
Shining star's design  
Get out the lamp and bring  
Our fantasies to light

We've got take a spark  
And try to light the dark  
And take this dream to heart  
We can't let it get away  
Imagine you and me  
A dance in ecstasy  
Believe and it shall be  
It's the chance that we should take

There's a man I know  
South of the border  
Who's seen the world  
And never left his home  
I heard him talkin'  
To his only daughter  
He said you don't have to fear  
The great unknown  
Darling in your mind  
You've got the best  
And that ain't all  
If you seek you'll find  
Shinning star's design

We got the lamp that brings  
Our fantasies to light

We've got take a spark  
And try to light the dark  
And take this dream to heart  
We can't let it get away  
We take what's on our minds  
And give it room to shine  
And see what we can find  
There's so much to celebrate  
Imagine you and me  
A dance in ecstasy  
Believe and it shall be  
If we only try imagination

[vocal improvisation - scatting]  
Imagination, imagination, imagination  
[vocal improvisation - scatting]

If we seek we'll find  
A magic star's design  
We've got the chance to bring  
Our fantasies to light

We've got take a spark  
And try to light the dark  
And take this dream to heart  
We can't let it get away  
We take what's on our minds  
And let the secret shine  
And see what we can find  
There's so much to celebrate  
Imagine you and me  
A dance in ecstasy  
Believe and it shall be  
Because there's nothing in the way

We've got take a spark  
And try to light the dark  
And take this dream to heart  
We can't let it get away
