

## Al Jarreau "Just To Be Loved"

Visit "[Just To Be Loved](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I was down to the bone I was lonely only yesterday  
Didn't know I was throwin my chances away  
Then you came along just long enough to see  
Far beyond the fool that I have come to be  
CHORUS Just to be loved by you  
It's like having all my sweetest dreams coming true  
You showed me something I've never seen  
You made me something I have never been before  
Never before  
I was always the one who would never give anything  
away  
If all your feeling is cool there's not much to say  
When the silence got too loud for me to bear  
You brought me love and taught me how to care  
CHORUS Just to be loved by you  
It's like having all my sweetest dreams coming true  
You showed me something I've never seen  
You made me something I have never been before  
Never before  
(REPEAT CHORUS)  
BRIDGE Cherish love when you use it  
It's never gone they say  
When you have it  
It's only love, only love  
CHORUS Just to be loved by you  
It's like having all my sweetest dreams coming true  
You showed me something I've never seen  
You made me something I have never been before  
Never before
