Killer love
Ive been watching you
Youve been watchin too
So sassy slinky that
I felt the heat at first sight
Is this burn for you all right
You smile and start to sway
Your satin slips away
This sweet obsession brings
A torch to my dreams all night
Such a killer, such a killer love
Such a killer, such a killer love
Killer diller, killer love, killer diller
Killer love (repeat)
I wanna wo...etc(repeat)
My doctors on the phone
Asks me if Im alone
Your heart is beating strong
But fever burns in your eyes
Im concerned for you tonight
Repeat chorus
