

Al Jarreau

"(Round, Round, Round) Blue Rondo A La Turk"

Visit "[\(Round, Round, Round\) Blue Rondo A La Turk](#)" on MotoLyrics.com

Round, round, round a melody
Round, round, round a harmony
Round, round, round a melody
Harmony, melody steadily

Round, round, round a melody
Round, round, round a memory
Round, round, round a melody
Memory, melody, merrily
There's a melody I used to play
Counterpoint every yesterday

Swiftly up and down I hasten and
Chasten my fingers and heart to play

Round, round, round a melody
Round, round, round a memory
Round, round, round a melody
Memory, harmony steadily

Round, round, round a melody
Round, round, round a mystery
Round, round, round a melody
Mystery, mirror of history

Taking over all my reveries
Hearing passions in the melodies
Play it up and down so wearily
Stumbling, fumbling, tumbling

Round, round, round a melody
Round, round, round a harmony
Round, round, round a melody
Harmony, melody, memory

Round, round town I follow you
Round, round town I'm calling you
Round, round town I hasten to do
All the chasing you want me to

Open up an opportunity
For I know that you will be

Truly happy and content with me
Measure me, treasure me, pleasure me

Open up an opportunity
Open up an offer. You will be
Truly happy and content with me
Measure me, treasure me, pleasure me

Round, round, round a melody
Round, round, round a you and me
Round, round, round a melody
You and me, melody and harmony

Round, round, round a melody
Round, round, round a harmony
Round, round, round a melody
Harmony, mystery, you and me

Don't you see
That we were meant to be
One and the same
Melody, married to harmony
One and the same
Change the score
We will be ever more
One and the same
Melody, married to harmony
One and the same

Here it comes, our symphony
Measure by measure
A melody and harmony
You and me in harmony
You and me so happy
We're making it
Shaking the blues ain't bothering me

Here it comes, our symphony
Measure by measure
A pleasure
A melody and harmony
You and me in harmony
You and me so happy
We found a new rondo
To end the blue rondo today
