Well how will we know  
What will become  
Of the universe  
In which we turn  
Talking about moving on  
A distant light shines on

Let's get back to where we started  
All returning to the garden  
Where we had such fun  
When we were young

Come with me  
You will see it's easy  
Come with me  
Just believe you're free

I've heard people say  
Sunlight will fall  
And lead the way  
For those who call  
We'll take in our stride  
The beautiful sky  
As day gives way  
To endless night

Let's get back to where we started  
All returning to the garden  
Where we had such fun  
When we were young

Come with me  
You will see it's easy  
Come with me  
Just believe you're free
