The birds and the bees
Are so hard to please
They sing so sweet and sticky
Sucking the sugar
Licking your lips again
Barely get you undressed
Before you get in a mess
It's na-tur-al don't let it
Swoon up again
Running the race again

L-ove

Love is here to stay
Don't you go and turn it away
Love can be your friend
We all need love in the end

Your hearts pumping dreams like gasoline
And you're ready to roll so do it
Look it in the eye
Don't creep up behind
Makes you feel so nice just give it a try
Just get the motor running
Started with a kiss

Then the fingertips

L-ove

Love is here to stay
Don't you go and turn it away
Love can be your friend
We all need love in the end
Save me up tonight
But give me up the city light
Going to the other side
I want to feel alive

Love is here to stay
Don't you go and turn it away
Love can be your friend

We need some in the end

Love, your, big, heart
Kiss, my, red, lips

L-ove, we're out of our minds
L-ove, each and every time
L-ove, there's no need to be scarred
L-ove, put your hands in my hair

L-ove, l-ove, l-ove, l-ove
