### "We Love You"

This sinking feeling got me believin'  
Nighttime calls  
Wandering round in the dark I have found  
Light years have passed me by  
Oh how I cry  
My mind recaptures faces  
Friends that left no traces  
Places I have been now haunt me in my dreams

There are so many of us  
Well do you know we love us?  
There are so many of us  
They like to be above us

Tiptoeing round in the streets I have found  
Strangers have passed me by  
No I don't mind  
My eyes avoid the streetlight  
Ears can't take the nightlife  
Am I all I seem  
Is this really me

There are so many of you  
There is no-one above you
