"Passing Time" by Pete Murray

Passing time, youve come so far but you're still behind
You'll lose your mind, if you cut the line

It's just the way it's been.
All your friends and all their sins.
Just passing time
Don't fall behind

I will come for you
If you call I'll come right now
I will help you see through
All your pain and troubled time
Just you know I'll be there
If you ever decide to call

Passing time, all your addictions are so sublime
Its in your mind, if you cross the line

It's just the way it's been.
All your friends and all their sins.
Just passing time
Don't fall behind

I will come for you
If you call I'll come right now
I will help you see through
All your pain and troubled time
Just you know I'll be there
If you ever decide to call

Ill be there for you
If you call
Ill be there for you
Any time at all

Passing time,
Just passing time.
Passing time,just passing time.
