Into the forgotten abyss
I will reign supreme
Enter the shadow of winds
Undying - embrace the pain
Enter the forest of bodies
Forging wood into steaks
Sacrifice - the dead lord of murder
Sea of the impaled

Still I see the forgotten for I will suffer
Into the past - I wander
Only to here you breathe

When you awake
Hanging from the wood
That is the alter
From which you prey

All the cries - into the skys I will
Will lye

I will escape this sleep
Into - the darkness resist
Into - the nether realms
I will - bleed on the innocent

Into - the forgotten abyss
I will - escape this sleep
Into - the forgotten abyss
I will - bleed on the innocent

Sacrifice - the dead lord of murder
Impaling the weak on stakes
Sea of the impaled
