

Peter Bjorn And John "Ancient Curse"

Visit "[Ancient Curse](#)" on MotoLyrics.com

We want it bad, so bad it hurts, let's wait
You turn me on but the problems turn me off
Please pack my bags, I want to close this case for good
Let's make this steady, it's all bend out of shape
You look away now, I want to know why

Been calling bluffs like this before
It's so old
You just can't get worse
Ancient curse
But what if we could break that?

We want it bad, so bad it hurts, let's wait
Until the next part
You turn me on but the problems turn me off

It won't let go, it must be buried for so long
It's all so clear now
Don't get me wrong now but we were doomed from the
start
It's getting dark now, should have know why
