

Peter Bjorn and John "Cool Off"

Visit "[Cool Off](#)" on MotoLyrics.com

Don't go wrong with your sleepy, sleepy eyes
Don't forget we are watching you tonight
Your one-trick pony has got no decent shoes
You blast the ball but you never learned the rules

Don't let them cool off, don't let them cool off [x2]

You got something inside of you, ok
It will surely make a difference one day
Raise your hand and get yourself down to the ground
We gotta put the power back where the power belongs

Don't let them cool off, don't let them cool off [x4]

Stop bringing us down and out of time!

Don't let them cool off, don't let them cool off [x4]

Don't let them cool off, don't let them cool off
Don't let them cool off..
