

## Peter Bjorn and John "The Trap's My Trip"

Visit "[The Trap's My Trip](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You know it's never gonna last a lifetime  
So I say you're better off if you end it now  
Then you take a look around the properties  
There's a lot to see, let it surround you now  
'cause if you are sure you are ridiculous  
One can never be not even the best of us

I know, 'cause I've been there

You disappoint yourself if you stay like that  
You'll grow bitter, I can see it happening  
And then you'll wish you'd done as I said  
But it's too late, you're already stuck  
and you walk around looking for reasons to make it  
worthwhile  
but you never find them

I know, 'cause I've been there

But if you'd seen her  
The first time that we met  
She walked up to me, she walked up to me  
I never would have guessed, I would come to depend  
on her  
I would come to depend on her

As she approached me, talked to me, spoke my name  
she spoke my name, she spoke my name  
I never would have guessed, I would come to depend  
on her  
I would come to depend on her

But as it happens  
If I picture me growing old without her  
without her  
That I couldn't bear, I see her by my side  
I see her by my side

I need to focus on the things that I do best  
and work on that, and work on that  
Now I'm working this affair

I won't finish 'til I'm done, I won't finish 'til I'm done

Up until now, I've been only wasting time  
Wasting time, I'm wasting time  
That's not what I need, the only time I need  
Is the time I've spent on this here

And if you say  
that I'm held in a trap  
Then I shout from the bottom  
and the top of me  
that is where I wanna be

And if you say  
so entrapments your trip  
Then I shout from the bottom  
and the top of me  
if that's how you see it so be it

And if you say  
that I'm held in a trap  
Then I shout from the bottom  
and the top of me  
that is where I wanna be

So if you say  
that entrapments your trip  
Then I shout from the bottom  
and the top of me  
if that's how you see it, so be it.
