We use to laugh on the street light
Got lost on the inside
And that's a nothin' without you
The life that we once had turned so blue

You knock me down in your free fall
So destructive and so cold
These broken bottles and street signs
Just remind me of days we spent round mine

(Chorus)

Saw me open, and now I can see you glow
Calling out through the night, I won't let you go
Right along through the day, till I watch your skies at
night
Stars shine for Amelia (Ah-Ah-Ah-Ah-Ah)
She's a girl that I once knew (Ah-Ah-Ah-Ah-Amelia)
And the love goes down so slowly
Time wont change you only
In my dreams you're here tonight (Amelia, Amelia)
(End Chorus)

We'd always find our way somehow
But those days are gone now
These streets mean nothin' without you
'Cause the times that we once had turned so blue

(Chorus)

Amelia, Amelia, Amelia, Amelia

Stars shine for Amelia (Ah-Ah-Ah-Ah-Ah)
She's a girl that I once knew (Ah-Ah-Ah-Ah-Amelia)
And the love goes down so slowly
Time wont change you only
In my dreams you're here tonight (Amelia, Amelia)
