Just tell me  
Have you made up your mind yet  
Will you show the right way to me  
I'll tell you  
I wish I knew you well  
Then I could speak my mind and show you  
For all they say we're not going insane  
We're gonna start all over again  
Day by day we're making our own way  
Every time I see you  
Walking through the golden dawn  
I feel like I'll never let you go  
For all they say we're not going insane  
We're gonna start all over again  
And then again it will be the same  
As we'll find we're back in the game  
We're gonna start all over again  
Day by day we're making our own way
