

Citizens Here & Abroad "Microphone"

Visit "[Microphone](#)" on MotoLyrics.com

I know it's somewhere, if I could only get there.

Grab a microphone, plug it in, and turn up the volume.
If you have to just take a breath and put the words
Together.

Try to forget that anyone's watching.
Grab a microphone plug it in and turn up the volume.

Stuck in my throat, worry and hope.

Which one will stay with me forever?
I want it more, two days or four.
How long can I go, 7-Eleven.
Keep up the pace. Try not to waste a minute of time.
Try to keep going. Stuck in my throat, worry and hope.
Which one will stay with me forever?
