We were totally in love
It was like you were sent from heaven above
You made me feel like I was flyin'
Oh no I'm not lyin'

We seemed to fly in mid air
When you ran your hands through my hair
The way you whisper in my ear
Made me really wanna hear

I was your nerd
You were my geek
We didn't think that much differently
We were totally went to be
You and me

We went on dates
We stayed out late
We kissed past curfew
How's that for you
Uh-oh uh-oh

I was your nerd
You were my geek
We didn't think that much differently
We were totally went to be
You and me

We were totally I love
It was like you were sent from heaven above
I was your nerd
You were my geek
We were totally went to be
You and me
