Here I go again
Hanging on to the bitter end
All alone, nothing left to lose
Don't want to face tomorrow
I can't sleep tonight
Blame it on the weather
Till I get over you

Feels like rain
Feels like I'll never fall in love again
There's a cold wind blowing
Every cloud my way
And it feels like rain today

Taking down every picture
Hanging on every wall
Broken dreams, painful memories
Like the times I never listened
And the times I didn't try
It's gotta be the weather
'Cause you're not here with me

Feels like rain
Feels like I'll never fall in love again
There's a cold wind blowing
Every cloud my way
And it feels like rain today

Regretting every minute
Since I watched you walk away
?Cause it's not the same without you
And now the clouds are hiding
Every sunny day
I guess I'll stay inside again
?Cause it feels like rain today

Feels like rain
Feels like we'll never fall in love again
There's a cold wind blowing
Every cloud my way
And the clouds are hiding
Every sunny day

And the storm is coming
So I'm here to stay
'Cause it feels like rain today
Yes, it feels like rain today
