[Verse 1]
You make me feel protected, like your my body guard
You take me everywhere, like your my chauffeur & I'm
a star
All of the things you do, just define who you are & you
are everything to me
Whenever I get lonely, your there to be my friend
And when I'm sad, you make me laugh like a comedian
And like someone creative, you think of different ways
To make me feel special each day

[Chorus]
All I can say, is your simply amazing
I'm in love, with everything about you
Please don't change, your simply amazing
& I don't know what I would do without you

[Verse 2]
You cook just like a chef, & serve me like a butler
Your like my doctor baby, heal my body like no other
God is the greatest artist, & he gave me a masterpiece
The moment that he sent you with me
You are my favorite person, your like a celebrity
When I'm around you, I just feel like I'm a better me
You are my dream come true, you show me different
ways
To make our life go each day, that's all I can say

[Chorus]
All I can say, is your simply amazing
I'm in love, with everything about you
Please don't change, your simply amazing
& I don't know what I would do without you

I-i-i-I've never been so in love before
Cause I never thought I'd find that special someone,
who's perfect for me
I can't believe it happened, but you came my way, baby
stay
Cause your simply amazing

[Chorus]2x

All I can say, is your simply amazing
I'm in love, with everything about you
Please don't change, your simply amazing
& I don't know what I would do without you
