You knew I was a singer
I child of radio
No so far from the dream you had
A long long time ago
Before I ever saw your face
I knew you by sight
And when we came together
It was destiny, in the night

Destiny
In the night
Destiny
In the night
Destiny
In the night
When we touch and I hold you tight
Destiny
In the night
When we kiss and it feels so right
Feels so right
Feels so...

Love was just a banjo
All down along the line
Fate was just a mirror
In a stranger's eyes
I knew you were the actress
Whose act would set me free
And when we came together
We called it destiny

[Chorus]
It was destiny
In the night
Destiny
In the night
Destiny
In the night
When we touch and I hold you tight
Destiny
In the night

When we kiss and it feels so right
Feels so right
In the night

[Solo]

Feel like flying

It was destiny (destiny)
In the night (in the night)
It was destiny (destiny)
In the night (in the night)
Destiny
In the night
When we touch and I hold you tight
Destiny
In the night
When we kiss and it feels so right
It was destiny (destiny)
In the night (in the night)
Destiny
In the night
When we touch and I hold you tight
Destiny
In the night
