"Borderline"

Visit "[Borderline](#)" on MotoLyrics.com

I'm resurrected by her kiss
I'm lying on the floor - I can't explain this silence

I'm running aimless through my life
My mind is breakin into countless little pieces

She wipes my sins away
She gives infinity

Save me - from the shadows in my life
Take me to the borderline
Heal me - I feel numb tonight

I'm searching solace for my heart
The moments converse takes control again in my head
In a lifetime full of tragedy
My tortured body needs her tenderness

She wipes my sins away
She gives infinity

Save me - from the shadows in my life
Take me to the borderline
Heal me - I feel numb tonight

All the memories of my life are dying
All the memories without you
Now you take me on your wings of everlasting trust
Here I am ,I am alive

Save me- from the shadows in my life
Take me to the borderline
Heal me - I feel numb tonight
