Make me, Tour Joy  
Walk in say nothing and ya speak like myth, girl No-one  
wants out  
And I don't think so  
Never ever gonna let go  
All sold with these fingers in pockets  
Every little mind wrapped up yeah

I will do it like we know it's real  
I can spend it like I know it's real  
I imagine you just like you're real  
I will do it till I know it's real

It might suck you in, Yeah you're always near  
It might suck you in, Yeah you're always near

You give me as much you can  
No big no little amount would ever owe yeah  
Just save me from walking out  
I'm gonna watch myself make these big cuts across the  
land

I will do it like we know it's real  
I can spend it like I know it's real  
'Cos imagine you just like you're real  
I will spend it like I know it's real

It might suck you in, Yeah I'm always near  
It might suck you in, Yeah I'm always near

It might suck you in, Yeah I'm always near  
It might suck you in, Yeah I'm always near  
It might suck you in, Oh I'm always near  
It might suck you in, It might suck you in  
... but not if you're always near then it won't
