Some days, sometimes
She calls and says
She can't see the wood for so many trees
She pours it out to me

So I'll talk her down
Put her feet back on the ground
For what will happen when I'm not around
Cause I worry, where to and fro
I wonder, where she'll go
Cause I'm begging you

Mr. Light come out tonight
Throw a line and help her
She'll be all right, I know it
She only needs somebody to show her what is
happening
Mr. Light come out tonight
Throw a line and help her
She'll be all right I know it
She only needs somebody to show her what is
happening

One sign is on
She'll need she'll find it
The fun of the night tearin' her apart
Don't leave her in the dark

Shine on, show her
The direction that she needs
It's down to you to make her see

Cause I worry, where to and fro
I wonder, where she'll go
Cause I'm beggin' you

Mr. Light come out tonight
Throw a light and help her
She'll be all right I know it
She only needs somebody to show her what is
happening

Mr. Light come out tonight
Throw a light and help her
She'll be all right I know it
She only needs somebody to show her what is
happening

It's only when the sky falls down
It's only when the luck runs out
Nothings ever going right

Mr. Light come out tonight
Throw a light and help her
She'll be all right I know it
She only needs somebody to show her what is
happening

Mr. Light come out tonight
Throw a light and help her
She'll be all right I know it
She only needs somebody to show her what is
happening
