The nightclub's closing down they say
The nightclub's closing down they say
Where's the music going to happen?
Where's the music going to happen?
The nightclub's closing down they say
The nightclub's closing down they say
Where will we dance when the beat hits?
Where will we dance when the beat hits?
The nightclubs's closing down they say
The nightclub's closing down they say
All the people call to action
It's an underground revolution

We must find a place to open
Clean it up, power on, turn it up
Clean it up, power on, turn it up
Inside, outside, this is our night
We don't care, where it is, turn it up
We don't care, where it is, turn it up

The nightclub's closing down they say
The nightclub's closing down they say
Where's the music going to happen?
Where's the music going to happen?
The nightclub's closing down they say
The nightclub's closing down they say
Where will we dance when the beat hits?
Where will we dance when the beat hits?

Can't we find a place?
Can't we find a place to play?
Basement club
That's where we come alive
Steady dub
Beat music comes alive
Can't we find a place?
Can't we find a place to play?
Basement club
That's where we come alive

Steady dub

Beat music comes alive

Dance floor's my yard come by full style
Everyone, showing up, turn it up
Everyone, showing up, turn it up
Drink's in the back, no ID's right
All lit up, on the block, turn it up
All lit up, on the block, turn it up

The nightclub's closing down they say
The nightclub's closing down they say
All the people it's a calling
All the people it's a calling
The nightclub's closing down they say
The nightclub's closing down they say
All the people call to action
It's an underground revolution

Can't we find a place?
Can't we find a place to play?
Basement club
That's where we come alive
Steady dub
Beat music comes alive
Can't we find a place?
Can't we find a place to play?
Basement club
That's where we come alive
Steady dub
Beat music comes alive

YEAH! OH! YEAH! OH! Relocate the beat

The nightclub's closing down they say
