Better than what ou drill
Better than what you fulfill
That's why they call it moving forward

Better than worthless skill
Instill the thrill to kill
That's why they call it moving forward

He won't back down

Do you want to be dumb enough to think it's all fine
The only room that you hate, but still you can't leave
Do you want to be smart enough to think this all sucks

The only room that you hate, but still you can't leave

He won't back down
Parts break after overuse
A pistol in their words
I don't, I wait

And there's nothing they should do about it
And there's nothing they will do about it

The difference
We all got up
Swallow an insult
