

## Claztiquai Project "Come Alive"

Visit "[Come Alive](#)" on [MotoLyrics.com](http://MotoLyrics.com)

All of my life I never knew and I never felt like this  
Until now  
I've been asked to live it for real and I never felt  
Like this until now

When my heart stops, I slightly shake  
I was about to forget, and I found myself  
Why

All of my life I never knew and I never felt like this  
Until now  
Even though I try to hid it, I never felt like this  
Until now

When my heart stops, I slightly shake  
I was about to forget, and I found myself

Come alive out here on the road  
Come alive where my eyes can see

Come alive out here anyway  
Come alive reaching out for life

All of my life I never knew and I never felt like this  
Until now  
I've been asked to live it for real and I never felt  
Like this until now

When my heart stops, I slightly shake  
I was about to forget, and I found myself

Come alive out here on the road  
Come alive where my eyes can see  
Alive

Come alive out here on the road  
Come alive where my eyes can see  
Come alive out here anyway  
Come alive reaching out for life
