You can't lose if you don't play  
You can't lose if you don't play  
You can try your best to win  
But best get out of the way

I've been down that cold dark way  
And see nothing but trouble lay  
I got terrified along the way  
Nothing but trouble lay

But oh, I swear  
I did my best to prepare  
Oh, I got lost I don't know where

You can't lose if you don't play  
You can't lose if you don't play  
You can try your best to win  
But best get out of the way

Now, what the hell's so wrong  
About breaking even?  
I say, what the hell's so wrong  
About breaking even?  
Always seems that once you get started,  
You're already beaten

But oh, I swear  
I did my best to prepare  
Oh, I got lost I don't know where  
And oh, I swear  
I did my best to prepare  
An oh, I got lost I don't know where

Best stay out of the way  
I said, you can try your best to win  
But man, best stay out of the way
