### "Digital Dance Floor"

Visit "[Digital Dance Floor](#)" on MotoLyrics.com

I'm killing you  
With chilling signs  
I drift  
Right through the door  
And fell right through  
The other side

They were circling me  
With their plastic faces  
Shaking the beat  
Leaving crimson traces

Where broken hearts go when weakened  
Where the music's bleeding through the speakers  
To the digital dancefloor

Jet black  
Let's go  
Everybody wants to run and go there  
Digital dancefloor

Snapped  
Let's make sound effects  
Shaking strobe light  
Laser insects  
Up the walls  
And out the system  
I shouldn't have looked  
But I almost missed them

Pulling at me from every angle  
Devilish wings blowing out the candle  
Twisting my head with color changes  
Waking up the dead with the dancing strangers

Where broken hearts go when weakened  
Where the music's bleeding through the speakers  
To the digital dancefloor

Jet black  
Let's go

Everybody wants to run and go there  
Digital dancefloor

Will someone let me out  
Can someone let me out

To dance  
In digital  
Let's dance  
Don't break it all  
Let's dance  
In digital  
Let's dance  
Let's dance  
Break it all

Where broken hearts go when weakened  
Where the music's bleeding through the speakers  
To the digital dancefloor

Jet black  
Let's go  
Everybody wants to run and go there  
Digital dancefloor

Will someone let me out  
Can someone let me out

Where the music.....
